

SCHEME PROPOSED IS A LIBERAL ONE

Presented to Envoys This Morning.

CONSIDERED BY MEMBER OF AGUINALDO'S CABINET.

If Filipinos Accept Offer of United States Commission, They Will Be Represented in an Advisory Council to Be Elected By the People—Probably on the Bench and in the Chief Departments of Administration—Lawton Proceeding Down the Rio Grande, Drives the Enemy Westward—Transport Grant Arrives With Troops.

Manila, May 22.—[Special]—The scheme of government presented to the Filipino envoys at this morning's conference by the United States Philippine commission, which was considered by one of the envoys, who is a member of Aguinaldo's cabinet, was a liberal one. By this scheme, the natives would be represented in an advisory council to be elected by the people, and probably on the bench and in the chief departments of administration.

Lawton Drives the Enemy

Washington, May 22.—[Special]—Gen. Otis cabled the following this morning: "Lawton is proceeding down the Rio Grande from San Isador and has driven the enemy westward from San Antonio, Caria, and Arayat, where he was joined by Dobbe's column. They will reach Santa Anna and Candaba today."

"MacArthur is still at San Fernando. The insurgent forces are disintegrating daily. Gen. Luna's forces are much diminished. A number of officers of rank have deserted him and are entering Manila. They have denied Aguinaldo's request for armistice."

Otis also informs the war department of the arrival of the transport Grant, with twelve hundred and fifty troops from the United States.

Make No Definite Proposition

Manila, May 22.—[Special]—The Filipino envoys have made no definite proposition as yet except to ask for a cessation of hostilities.

Tomorrow the envoys will hold another conference with the Philippine commissioners and then visit the American fleet.

The visitors are apparently ignorant of the true condition of affairs here. They were led to believe that affairs were in a chaotic state, but instead find everything going along the same as in times of peace. They have been deluged with invitations to social affairs.

A coasting steamer which just arrived here reports the Spanish garrison at Zamboanga in a precarious condition, and being fired on nightly.

Manila, May 22.—Judge Advocate Alberto Barretto, one of the Filipino commissioners, had an interview Sunday with the American Philippine commission. The meeting was approved by Gen. Luna, one of the rebel commanders, who is thoroughly in accord with Aguinaldo in his efforts to obtain peace. The primary object of the interview was to ascertain the kind of government that the United States proposes to establish here. The Filipino commissioners have no power to effect a settlement, but must refer all matters to Aguinaldo.

In the presence of Dr. Robair, a close friend of Aguinaldo, and another peace commissioner, Zialcita, who approved the sentiments expressed, Gen. Gregorio del Pilar said: "The insurgents are anxious to surrender, but want the assurance first that there will be no putting to death of the leaders in the rebellion, and some proof that the Americans will carry out the generous statements made in their proclamation. We have been acquainted with the Americans only a short time. If they are sincere, we will agree to unconditionally surrender."

Twenty-five native militiamen at Bacolod, capital of the island of Negros, have deserted to the insurgents, carrying their arms with them.

Gen. Smith, the commander at Holo, island of Panay, reports that he has decided to disarm the remaining militiamen.

CANNON FOR JANESVILLE

No Reason Why One Cannot be Secured For Bowser City

Janesville should take steps at once to secure one of the Spanish cannon captured in the late war. Milwaukee and Monroe have already secured them. A Washington dispatch says the secretary of war has secured from Judge Advocate Gen. Lieber an opinion affirming his right to loan or give to municipal organizations such of the cannon captured from the Spaniards in Cuba and Porto Rico as are unserviceable. The first of the guns which are in possession of the army were bestowed upon the military post at Fort Thomas, Ky.

AN INSANE WOMAN VISITS WHITE HOUSE

NEARLY SUCCEEDED IN ENTERING PRESIDENT'S OFFICE.

When Turned Over to the Police She Protested Loudly and Said That Peace Would Have to Be Established—Said She Was Sent From Heaven.

Washington, May 22.—[Special]—An insane woman giving her name as Sarah Sykes, and claiming to reside at Pasadena, California, called at the White House this morning and almost succeeded in reaching the president's office. She was turned over to the police, and when taken away she protested loudly and said that peace would have to be established and she was from heaven and sent on the mission to secure it.

DOWNING AT GRAND TONIGHT

Seen in His Superb Characterization Of "Ingomar"

William Downing is seen in his superb characterization of "Ingomar," the critics of the entire country concede him to be without an equal in this part. He has played it with the best Parthenia's in America, among them being the fair Mary Anderson, and the only Parthenia on the American stage today—Eugenia Blair. In this scene he shows what love can do. It is in this scene where those beautiful lines are spoken, "To souls with but a single thought, two hearts that beat as one." This is another part that Mr. Downing has played more than any other actor on the stage, it being one of his regular repertoire characters. In this is blended brutality, force, strength and power against the one little thing that makes the whole world kin; love. Love conquers, and in the end when the fair Parthenia entwines the flowers around the strong arm of Ingomar, and at the same time awakens in him the new life, a life that he has never known before, a picture is presented that will not be soon forgotten by those who witness it.

We will now leave the Mountains of the Cevennes and the bloody sands of the arena and go to Paris; go there with Mr. Downing, he is the part of Mohegan. Strangely in the beautiful comedy of "Paris in 1797." As we look upon this character we cannot imagine that only a short time has elapsed since we saw him in his Gladiator costume, then in the skins of the rough Barbarian, and now as the polished Frenchman who loves his wife but has a duty to perform, and that of showing her how foolish it is for a woman who is married to a good man, one who loves her and tries in every way to make her happy, to constantly revert to the past, to look back on those she imagined she loved in her girlhood days. The way the successful issue is brought about gives scope for superb comedy acting, not of the farce or horse play order, but refined high comedy, and it seems almost incredible to those who have always seen Mr. Downing in such characters as Othello, Brutus, the Gladiator, Virginius, Damon, Samson, etc., etc., that he can be so much at home in the sunlight of life. Thus you can see what an interesting bill he presents and why it is such a success. He will appear at Myers Grand tonight, and the manager, Mr. Myers, guarantees to those that patronize this performance that it is one of the best if not the most novel entertainment of the kind that will be seen during the season.

MUCH VALUED BOARD SPACE

Carpenters Will Commence Its Erection About the Lappin Block

Contractor August C. Krueger and men will commence tomorrow morning the erection of a mammoth bill board encircling the entire Lappin block corner of Main and Milwaukee streets.

The board will be eight feet high and will be placed on top and at the edge of the present wooden structure that encircles the building.

Space will then be rented for a term of three months to local and out-of-town merchants for advertising purposes.

D. W. Watt was Saturday awarded the privilege in spite of the fact that Chicago and Milwaukee bill board firms had submitted bids.

Rev. J. Koerner Preached at Hanover This Morning.

At the Hanover Lutheran church this morning at 10 o'clock Rev. J. C. Koerner, of St. Paul's Lutheran church, of this city, preached an excellent sermon. Rev. Mueller, of Hanover, will occupy the pulpit at St. Paul's church in this city this evening at 7:30 o'clock.

AMERICAN LINER PARIS IS AGROUND

STEAMER RAN OUT OF HER COURSE IN FOG.

Passengers Are All Safe—Accident Caused No Panic and all Passengers Who Wished Have Been Landed At Falmouth—Officers of the Vessel Are Discouraged.

Falmouth, England, May 22.—[Special]—The American liner steamer Paris is still hard and fast on Lowland Point. The officers of the vessel are discouraged over the prospects of saving her. The salvage of the stranded vessel's cargo, together with her furniture, fittings and mails, is now proceeding.

London, May 22.—The American line steamer Paris, formerly the United States auxiliary cruiser Yale, which went ashore early Sunday morning while en route from Southampton for New York, is still aground, but it is believed that she will be got afloat before long.

The Paris did not strike the Manacles rocks, the scene of the recent fatal wreck of the Atlantic Transport line steamer Mohegan, but stranded on Lowland point, inside the Manacles. Her hull is almost entirely out of water.

The Paris left Southampton punctually at the time set for her sailing Saturday, and her voyage was without incident until 2 o'clock Sunday morning. The passengers, with very few exceptions, had retired some time before the accident.

They were suddenly aroused by a loud and peculiar sound, which denoted to those who had knowledge of maritime affairs that the vessel was scraping over a rock.

There was, of course, much alarm among the passengers at first, but there was no disorder, and nothing that had the slightest semblance of a panic. All made their way on deck as quickly as possible, but before many of them had left their cabins the grating sound had ceased.

The Paris had apparently gone over a ledge and taken bottom almost immediately afterward, for by the time everybody was on deck the vessel was at a standstill. The place where the Paris is stranded is in sight of land, and is so close to the wreck of the Mohegan that the masts of the latter vessel, which are still standing, can be seen from the decks of the American liner.

A few minutes after the ship struck distress signals were burned and rockets were sent up. These immediately attracted attention, and in a short time tugboats were racing for the scene of the accident.

The lifeboat from Falmouth and lifeboats from other places were not long in reaching the stranded ship, but there was nothing for them to do but stand by. The passengers were quickly transferred to two tugs and taken to Falmouth, where all were safely landed.

So far no explanation is given for the ship being so far off her course, but it is most likely that a heavy fog that was prevailing caused Capt. Watkins to lose his bearings. Capt. Watkins says, however, that he is unable to account for the unfortunate affair.

The passengers are lavish in their praise of the admirable behavior of the officers and crew, and declare that it was due to their self-possession that no accident occurred to any one. Perfect discipline, they say, was maintained throughout.

VALUABLE MILL DESTROYED

P. G. Strickler Recieves Bad News From His Two Nephews.

P. G. Strickler, of this city, received a letter today from his nephews, William and Cyrus Strickler, of Lebanon, Pa., notifying him of the destruction by fire of their large flouring mill at Lebanon, causing a total loss of \$43,000 with \$17,000 insurance.

The mill had a capacity of 300 barrels a day.

The fire caught in the packing department and spread to all parts of the mill in short time.

The mill will be rebuilt.

WHIT SUNDAY WAS OBSERVED

Celebrated at the Local Catholic and Episcopal Churches.

Whit Sunday, the feast of the Holy Ghost, was observed yesterday in the local Catholic and Episcopal churches. Special music was rendered at some of the churches, and the principal service was in the morning. The ceremonies were most imposing and were well attended.

MASKED BURGLARS AT WATERTOWN, WIS.

ROB THE SAFE OF THE TABLE SLIDE COMPANY.

Blind and Gag Night Watchman Bliese—Fifteen Dollars in Cash and Negotiable Paper Taken—Hetherington Said to Have Been Seen Since Leaving Kenosha.

Watertown, Wis., May 22.—Shortly before midnight Saturday night five masked burglars entered the factory of the Watertown Table Slide company, near the Milwaukee railway station, and at the point of a revolver bound and gagged the night watchman, John Bliese, after which they proceeded to rob the safe in the office. Three charges of powder were used and the front of the safe was demolished.

Fifteen dollars in change was stolen, with about \$500 worth of negotiable paper held by the company against a furniture company of North Milwaukee, E. W. Klink, of Leavenworth, Kas., and the North St. Paul Table company of North St. Paul, Minn.

The burglars were at work two hours. Soon after their departure Bliese freed himself and gave the alarm, but no clue has been obtained.

To Look For a Lost Mine

Chippewa Falls, Wis., May 22.—Dr. G. W. Pickin left a few days ago for Glacier, Saskatchewan, Cal. He intends to explore Mt. Shasta, as far as the snow line and locate if possible, what is known as the "Lost Mine." The story is that the mine was discovered by a party of prospectors years ago and worked successfully for a time, then a band of Indians swooped down on them and all with the exception of one were slain. He was struck in the arm by an arrow, but rode to the nearest settlement seventy-five miles distant. Blood poison set in, the prospector died and the location of the mine was buried in oblivion.

Not Certain of His Suicide

Kenosha, Wis., May 22.—It is now believed that B. F. Hetherington, who disappeared Friday afternoon last, has not committed suicide as he threatened. A young man working at the powder mills in Pleasant Prairie said that he saw Hetherington last Friday evening after his supposed suicide and directed him to the town of Salem. The report was brought in this morning that he was alive in Salem. An effort will be made by the local police to determine the whereabouts of the man and to verify the stories in circulation.

Injured in a Saloon

Ashland, Wis., May 22.—Sergeant Goude of the night police force, was badly pounded in a saloon row Saturday night. Goude went to the saloon of Daniel Mahoney. Between the two men there has been a grudge. Goude, it is said, secured a revolver and entering Mahoney's saloon demanded an apology. A bystander knocked the revolver away, and a fight followed between Goude and Mahoney, in which the former was beaten into unconsciousness.

Gov. Scofield Visits Reformatory

Green Bay, Wis., May 22.—Gov. Scofield Saturday paid an unofficial visit to the state reformatory in order to gain some information concerning the best method of applying the \$150,000 appropriated by the legislature for the completion of the buildings. The governor left for Oconto last night.

He Weighed 385 Pounds.

Eagle, Wis., May 22.—William Carlin, died this morning, aged 50. He was conceded to be the heaviest man in Waukesha county, his weight at the time of his death was 385 pounds. Fatty degeneration of the heart was the cause of his demise.

Mills and Elevators Burn.

Brillion, Wis., May 22.—The Brillion flouring mills and two elevators belonging to C. W. Behnke burned this morning. The blaze was discovered in the third story of the mill about 4 o'clock. The loss is \$45,000; insurance \$30,000.

MURPHY LEAVES OSHKOSH

His Health Has Improved Rapidly. During Past Few Days.

Tim Murphy, the comedian, who was obliged to cancel his engagement in this city and who has been sick with pneumonia at Oshkosh for several weeks, being taken sick suddenly after a performance of the "Carpet Bagger," has so far recovered as to be able to travel. He left for Chicago Saturday noon accompanied by his wife, her mother, the nurse, Miss Like, of Chicago, and Dr. Mirable, of Clarksville, Tenn. Mr. Murphy will spend some days in Chicago and will probably go south to recuperate.

London's Population.

It is estimated that at the present rate of growth London, which now has a population of 5,657,000, will in 1941 have over 13,000,000.

CRYSTAL SPRINGS OPENING

Steamer Columbia Conveyed Many Up the River Yesterday

The fact that the atmosphere was a trifle too chilly yesterday for lemonade and ice cream did not prevent many from attending the opening of Crystal Springs park.

The steamer Columbia made several trips in the afternoon and Capt. Buchholz looked after his guests in his usual obliging manner. At the park the Imperial band was on hand and throughout the afternoon rendered an excellent concert program.

Capt. Buchholz has made many noticeable improvements in his park this year and the coming season promises to be a most successful one.

INTERRED AT EMERALD GROVE

Remains of Mrs. Clarence Wright Laid At Rest Sunday

Emerald Grove, May 22.—The funeral services of Mrs. Clarence Wright, whose death occurred Friday evening, were held at the Congregational church at 3 o'clock on Sunday afternoon, Rev. C. Dennis officiating. The song service was rendered by Mrs. Edgar Ransom, Mrs. J. A. McArthur, Irving Dennis and J. A. McArthur. The floral offerings were beautiful. The services were largely attended. The remains were followed to their last resting place and tenderly laid to rest beside her daughter Edith, who had preceded her but a little over a year ago. A kind, affectionate wife and mother has gone to her reward. She leaves a heartbroken husband and six children, Edna, Effie, Florence, Hattie, Jay and Earl, who will miss a fond mother's care, besides an aged mother, two sisters, Mrs. Jennie Heller of Janesville, and Mrs. Martha Blunt of Dakota, and two brothers, Robert Jones of this place, and John Jones of Iowa. In this sad affliction the husband, children and relatives have the united sympathy of all. Mrs. J. L. Boynton is visiting her son, Prof. A. J. Boynton, in Sparta. Bert Van Galder returned to Janesville Friday. David Clark and family of Harmony, and Mr. and Mrs. George Austin of Johnstown attended services here Sunday morning. Miss Angie Douglass of Clinton, was the guest of Miss Jennie D. McArthur Saturday and Sunday. The prayer meeting held at Miss Nettie Boynton's was well attended and a profitable meeting. The young ladies feel greatly encouraged. The next meeting will be postponed for one week and will be held on June 3 at the home of Miss Nettie Butler. All are invited to come. As fine a herd of cattle as one would wish to see was sold by Jerome Boynton to Mr. Dawson of Janesville recently. Mr. and Mrs. Byron Snyder of Clinton, spent Sunday afternoon with Mr. and Mrs. John McArthur. Mr. and Mrs. John Hedditch of Park Rapids, Minnesota, called on their many friends in this place last week.

COLON RUMOR IS NOT CONFIRMED

Cruiser Detroit Reported In Action.

SAID TO HAVE SUNKEN A NICARAGUAN GUNBOAT.

No News Received at Washington

Which Would Tend to Confirm the Story—News Received States That the Warship Sant Jacinto Fired on the American Vessel Which Has Been Stationed at Bluefields Since the Beginning of the Existing Troubles Between Merchants From This Country and the Government There.

Colon, Colombia, May 22.—A rumor has reached here from Bocas del Toro that the Nicaraguan gunboat San Jacinto fired at the American cruiser Detroit and that the latter replied, sinking the gunboat. The report lacks confirmation.

No Confirmation at Washington.

Washington, May 22.—No official confirmation of the reported engagement between the United States cruiser Detroit and the Nicaraguan gunboat San Jacinto has been received by the navy department. Secretary Long has retired, but Mr. Charles H. Allen, assistant secretary of the navy, said that he had heard nothing about the matter.

The Detroit is commanded by Commander J. H. Dayton. She has been stationed at Bluefields ever since the beginning of the existing troubles between American merchants and the Nicaraguan government over the payment of duties on goods which had already been taxed. The Detroit recently went to Colon, Colombia, to coal and to communicate with the navy department, messages from Commander Dayton having failed to reach Washington.

DESTROYED BY FIRE

Grand Stand at the Paddock Harlem Race Track Chicago, Burned—Loss \$200,000.

Chicago, May 22.—[Special]—The grand stand at the Paddock Horse race track burned this morning. Loss one hundred thousand dollars. It is believed the fire was of incendiary origin.

FOR CURRENCY REFORM.

Reported Plan of the House Republican Caucus Committee.

Washington, May 22.—It is understood that the house republican caucus committee, appointed to frame a scheme of currency reform, has agreed upon a measure along the following lines:

The redemption of all obligations of the government in gold on demand.

Greenbacks, when once redeemed for gold, to be reissued only for gold.

Permitting national banks to issue notes to the par value of their government bonds deposited in the treasury, instead of 90 per cent as at present.

Permitting the minimum capital of national banks to be \$25,000, instead of \$50,000, as at present.

This plan is much less comprehensive than ardent advocates of general currency revision have urged, but was adopted because harmonious agreement on it was possible, which was not the case when more radical measures were suggested.

Hopkins Is Confident.

Washington, May 22.—Representative Hopkins of Illinois is in Washington to attend to some department business and also to look over the eastern situation in the speakership contest. Mr. Hopkins said tonight that he was entirely satisfied with his prospects for election as speaker. He believes that the speaker will be taken from the west and that the contest will be between himself and Col. Henderson. He is much gratified at the assurances of support he has received from members of the house from all parts of the country, and while it is too early to talk about details, he is very hopeful that the next speaker will be elected from Illinois.

Want to Be Represented.

Milwaukee, Wis., May 23.—The members of the democratic county committee held a meeting Saturday night and decided that as National Committee-man E. C. Wall had announced that he would not attend the meeting of the national committee at St. Louis next Thursday some one should be selected to take his place in order that Wisconsin might be represented.

PECK'S SUN EXPOSES
A GREAT INVENTION

IDEA OF CLEMONS' PATENT
BATH DISCLOSED.

Janesville Man's Contrivance For Combination Comfort in Duck Shooting and Weight Reduction Is Explained So That All May Adopt It Despite Withington's Caveat.

Peck's Sun gives a history of the famous Clemons-Withington Turkish bath appliances, as follows:

"Some of the great inventions of the age have been discovered by the most accident. This has been the case from earliest times, ever since Mr. Franklin discovered the attraction of gravitation by the fall of an apple from a tree. All must have noticed the new india-rubber bathing arrangements, by which a person can get inside a rubber affair, light a lamp and take a Turkish bath at home. It is on the same principle of the old fashioned 'whisky sweat', but its being utilized as a full Turkish bath was an accident. Two years ago, on a cold November day, a party of duck hunters were sitting about a stove at a club-house at Lake Koshkonong, thawing out after a morning in the duck blinds, during which nearly all were frost-bitten. One of the gentlemen, Mr. Clemons of Janesville, sat with his cold feet in the oven of the cook stove for a long time, thinking, and finally he said he had thought of a way to keep warm in a boat, and he was going to try it.

Steam 'Rose in Clouds

"The boys chaffed him, and said the only way to keep warm in a duck boat on such a day was to bring the boat in by the stove and line, it with fur, but Mr. Clemons said he had a scheme, and after dinner he took a rubber blanket and a kerosene lantern and started for his boat. No man had ever started after ducks before from that clubhouse, in the daytime, with a lantern, and his companions looked at his two hundred and fifty pounds of flesh and his lantern, and they looked at each other and tapped their foreheads, and sighed. 'Poor Fred,' they thought, 'his mind could not stand the strain, and he has broken down, just in the prime of life.' He got into his boat, with the lantern at his feet, rowed out to his blind not far away, and the crowd saw him pull the rubber blanket up around his neck and they watched him. In a short time steam or smoke was seen to arise from the boat, and the ice that had collected on the blind stakes began to melt and to disappear.

Rescuing Party Went Out.

For an hour Mr. Clemons never moved a muscle, and ducks began to settle in among his decoys, and they would swim up to the boat and look over the side and look as though this was a new scheme in duck hunting that interested them. When the crowd saw that Mr. Clemons did not move when ducks were all about him, and they saw the steam arising in clouds about the boat, they became alarmed at the condition of their friend, and thought that possibly he had passed away, there in the boat, that his life's work had terminated, and they knew if he had died it had been just as he would have preferred to have the end come, on the good old lakes surrounded by the rare game that he had pursued for years with so much pleasure. So they prepared to bring his remains to the shore, and all started out in duck boats to go to the blind and tow back to the shore he loved so well all that was mortal of the best fellow that ever shot a ten-pound duck at an eight-ounce duck.

Had a Fine Bath.

"There was sadness on every face as the flotilla approached the blind, and no one spoke, as all were thinking of the sad end of one of God's noblemen. As the boats approached, the ducks flew away, having warmed their feet in the warm steam that came out of the boat. As the friends gathered around the steaming boat, which reminded them of a scene in the Yellowstone park, they saw that the face of their friend was covered with frost from the top of his head to the rubber blanket, and then he realized that his friends were there and he said, 'Boys, this is great. I have enjoyed the finest Turkish bath a man ever had, and he threw off the rubber blanket and there was not a dry thread on him. In the enjoyment of his improvised Turkish bath he had become oblivious of ducks and everything, and given himself up to pure enjoyment.

Patent Taken Out

"His friends got him to return to the clubhouse, where he was rubbed down and weighed, and it was found that he had lost twenty-seven pounds. The story was told in Janesville, and an inventor named Withington is said to have applied for a patent on the india-rubber Turkish bath, and it is said he is receiving a royalty of \$500 a week on the patent, while Mr. Clemons, the original, is not getting a thing, except an occasional bath at reduced rates. Such is life."

ARE RENUMBERING ENGINES

Chicago, Milwaukee & St. Paul Ry. Co. Inaugurate New System.

The Chicago, Milwaukee & St. Paul Railway company has inaugurated a new system of numbering its engines. They are now divided into classes light weights, mediums, heavy weights and moguls. The larger the engine the lower the number and vice versa. The moguls are in the 100 lot and so on, while the switch engines and light draft passenger locomotives are all above the 1,000 mark. The advantages of this classification are several. The working capacity of the machine is known at once by the official as soon as he knows where it stands on the list. As the road has to pay taxes on these engines, it also enables the company to give a true and just estimate of the value of the same, according to their size, age and pulling capacity. Locomotives seem to be like trees, they die at the top first, for those that are likely to be thrown into the scrap pile soonest are given the highest numbers. This accounts for the renumbering of the small engines that have been hauling the trains on the Madison and Rockford and Mineral Point runs, which have been put into the 1,200 and 1,300 class.

Footville.

Footville, May 20—Wanted—Warm weather in this vicinity. Remember the rally at the M. E. church. The social at W. J. Owen's was a success. Mr. Davis, our monument dealer, has one of the finest monuments on the market. He has opened a shop at T. Ogden's old mill. We all trust he will have good trade. HOME GOWN OF PALE GREEN VEILING FROM HARPER'S BAZAR

A very simple model, and one equally adaptable for slender or full figures, has a bodice tucked vertically across the upper part both back and front, the tucks reaching around the body in an almost complete circle. At the left side of the bodice under the arm occurs the break in the circle. Here the veiling is plainly fitted over the lining. The tucks across the bodice are an inch deep, six in number, and are carefully marked in the pattern. These and the tucks upon the sleeve (of equal depth) are made directly in with the garment, wherein they differ from the tucks shown upon the upper skirt. In the latter instance fitted folds of veiling are made to do duty as tucks. The depth of these folds is one and one-half inches. Under the lowest, or simulated tuck, is

Patent Taken Out

"His friends got him to return to the clubhouse, where he was rubbed down and weighed, and it was found that he had lost twenty-seven pounds. The story was told in Janesville, and an inventor named Withington is said to have applied for a patent on the india-rubber Turkish bath, and it is said he is receiving a royalty of \$500 a week on the patent, while Mr. Clemons, the original, is not getting a thing, except an occasional bath at reduced rates. Such is life."

ARE RENUMBERING ENGINES

Chicago, Milwaukee & St. Paul Ry. Co. Inaugurate New System.

The Chicago, Milwaukee & St. Paul Railway company has inaugurated a new system of numbering its engines. They are now divided into classes light weights, mediums, heavy weights and moguls. The larger the engine the lower the number and vice versa. The moguls are in the 100 lot and so on, while the switch engines and light draft passenger locomotives are all above the 1,000 mark. The advantages of this classification are several. The working capacity of the machine is known at once by the official as soon as he knows where it stands on the list. As the road has to pay taxes on these engines, it also enables the company to give a true and just estimate of the value of the same, according to their size, age and pulling capacity. Locomotives seem to be like trees, they die at the top first, for those that are likely to be thrown into the scrap pile soonest are given the highest numbers. This accounts for the renumbering of the small engines that have been hauling the trains on the Madison and Rockford and Mineral Point runs, which have been put into the 1,200 and 1,300 class.

EASY VICTORY FOR
JANESVILLE HIGHS

DEFEATED WHITEWATER IN
SATURDAY'S GAME.

Score Was 34 to 6—Beloit College Team Captured Game From University of Wisconsin Nine—Large Delegation From Bower City Present.

The base ball team of the Janesville High school added another victory to its list last Saturday afternoon, defeating the Whitewater High school by the score of 34 to 6. The game was too one-sided to be interesting, and after the fifth inning there was no enthusiasm whatever, and all conceded an overwhelming victory for the Line City boys, who were too much for the team from the Normal town. Palmer and Bonasteel, the battery for the local nine, did some excellent work, Palmer striking out ten men and allowing only five hits to be made. Thompson and Sweeney were the battery for the Whitewater team. Thompson proved an easy mark for Janesville, they making thirty hits off his delivery. The following is the score by innings:

Janesville.....1 3 0 1 3 4 2 7 34
Whitewater.....2 0 0 0 2 0 0 2 6

The Janesville team will play its second game with the Beloit High school next Saturday at Athletic park.

Beloit, 28; Madison, 10.

Another one sided and uninteresting game of base ball was played at Keep Athletic field, Beloit, Saturday afternoon, the Beloit college club defeating the university of Wisconsin by a score of 28 to 10. A large delegation of local enthusiasts witnessed the game and pronounce it a very tame affair.

The score by innings was as follows:

Beloit.....1 4 9 4 2 1 0 0 7-28
Madison.....2 2 2 0 1 3 0 0 10-10

CUBANS MAY DISBAND.

Talk of Returning to Their Homes and Letting Us Keep Our \$3,000,000.

Havana, May 22.—It is not unlikely that the Cuban army may settle the vexed question of the custody of the arms by disbanding of its own motion. There are indications that the former insurgents, taking their rifles with them, may refuse to have anything further to do with Gen. Brooke and the waiting millions, following the lead in this of the Santiago veterans, whose decision not to reassemble, but to continue at work, ignoring the American paymasters, has created considerable enthusiasm.

According to a publication made Saturday the Havana Veteran association intends to call a mass-meeting in Tacon theater Wednesday or Thursday to endeavor to sway sentiment in the western provinces in the same direction. Manuel Sanguilly, Juan Gualberto Gomez and the most influential members of the assembly will address the meeting, and the chiefs declare they have already received assurances from the forces in Puerto Principe, Santa Clara and Matanzas provinces that they favor the plan of dumping the gold back to President McKinley's hands rather than give up their arms and their dignity together.

Repudiates Supreme Court.

Omaha, Neb., May 22.—Judge Cunningham R. Scott of the district bench has created talk again by making public a declaration that he repudiates the findings and opinions of the state supreme court. In a mandamus case from Sarpy county one of the attorneys cited to Judge Scott some Nebraska authorities. This was a little too much for the jurist, who at once shut him off, saying substantially that he would not listen to any decisions of the supreme court of Nebraska, whose judges were incapable of teaching him law; he would not go to the supreme court to learn law.

Henderson May Get Kansas.

Topeka, Kas., May 22.—It looks now as if David B. Henderson of Iowa would receive the seven Kansas votes for speaker of the house. Four are for Henderson and they will try to force the majority rule in the caucus to be held soon. Two are for Hopkins of Illinois and Curtis is for Sherman of New York. The anti-Henderson men may refuse to be bound by the caucus, and in that event Curtis hopes to take three votes to Sherman.

Kobbe Takes More Towns.

Manila, May 22.—Major Kobbe's expedition to open communication with Gen. Lawton has occupied Arayat, about seven miles beyond Candaba, on the Rio Grande, following the course of the stream. No insurgents were found there, and the Pampangas along the river are friendly. Last Friday Major Kobbe took Santa Ana, about six miles northeast of San Fernando, on the road to San Isidro.

Gomez May See McKinley. Havana, May 22.—Col. Cespedes sails this week for the United States, and Gen. Gomez may accompany him. In his manifesto issued last Friday Gomez asserted he would go to Washington, if necessary, and Col. Cespedes says he believes the general will conclude to go at once.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GUNSLAR, Gaars Mills, La. For sale by People's Drug Co.

SCOOPERS' STRIKE MAY END.

Bishop Quigley Advises Men to Take the Terms Offered.

Buffalo, N. Y., May 22.—Harvey D. Goulder of Cleveland, representing the Lake Carriers' association, came here Sunday to meet a committee from the Chicago board of trade, sent to investigate the dock troubles. Mr. Goulder said that the backbone of the strike was broken, as the monthly men will return to work today.

The freight handlers, who are disgusted with the leaders of the scoopers, have voted to go to work on Tuesday if certain objectionable men are removed.

The elevator situation will be improved materially by the return of the monthly men. Bishop Quigley advised the scoopers to take the terms offered, and it is not unlikely that the strike may end.

Is Friendly to Russia.

Paris, May 22.—President Loubet left Sunday on his first official trip since his election to attend the ceremonies at Dijon, where the monument to former President Sadi Carnot was unveiled amid great enthusiasm. The principal address was made by Premier Dupuy, whose speech attracted general attention. It was important as showing that President Loubet's government heartily approves the Franco-Russian alliance, the popularity of which has been somewhat disturbed on account of the Russian minister De Witte's report concerning the financial advantages Russia would gain if a friendly agreement with Great Britain could be arranged.

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgetts-town, Pa. For sale by People's Drug Co.

THIS DAY IN HISTORY.

857—Constantine the Great, first nominally Christian emperor of Rome, died; born 274; emperor of the west 324; of whole empire 324; called council of Nice 325.

1011—The first barons created in England; they paid £1,000 each for their patents. King James I. instituted the order of barons to raise a sum of money for the reduction of the province of Ulster, in Ireland.

The degree is next below that of baron, but the holder is a commoner. All barons have the arms of Ulster superadded to their coat. Originally numbering 200, lapses by death were not filled as first, but the custom soon gave way. Candidates were required to be of gentle blood and able to support the dignity.

1688—Alexander Pope, poet, born in London; died 1744.

1820—Richard Grant White, author and philologist, born in New York city; died there 1885.

1858—Victor Hugo, French poet, dramatist, novelist and patriot, died in Paris; born 1802.

1858—Edward Bellamy, author of "Looking Backward," "Equality," etc., died at Chicago Falls, Mass.; born 1850.

THE INTERURBAN ELECTRIC RAILWAYS.

The effect of interurban electric railways on the business of small towns is discussed in the current number of the Street Railway Review, of Chicago, by E. E. Downs, general manager of the Citizens' Traction company, of Oshkosh.

It has been claimed that such lines retard the progress of the smaller towns, while they prove of advantage to the larger ones. Mr. Downs cites the case of Valley line, connecting Appleton and Neenah. There was considerable opposition to the road before it was constructed, on the part of the business men of Neenah, who feared that the larger town would reap all the benefit. But today it is seen that there was no ground for such an impression, and the Neenah people find their business increasing in the same proportion as that of Appleton.

The opinion is strongly expressed that before long these interurban lines will absorb all the local traffic while the steam railroads will be confined to through travel exclusively. The present conditions certainly tend to prove the correctness of this expectation. Interurban travel is rapidly becoming more and more popular. To be able to step into a car, at one's very threshold and be transported for miles, not only up town or down town, but to some other town, miles and miles away, cannot fail to have a revolutionizing effect upon railway business.

The first issue of Peck's Sun is out, and a most interesting paper it is, too. The genial ex-governor has discarded "the bad boy" for "Peck's Uncle Ike," and the old gentleman has much bright wit and good philosophy to offer. In another department "the good boys and the bad boys are shaken up in a bag, so that they will all come out good enough," and all boys are invited to make the column their own. In addition to the writings of the senior editor and his also gifted son, well selected articles on the various topics of the day are featured, furnishing a wide range of excellent reading. The paper, says the leading editorial, is started to "fill a long felt want on the part of the people," and to "make money for the publishers" and in both cases we predict that it will be unusually successful.

Peck's Sun speculates on possible changes in American customs of dress if the Filipino congressmen come to Washington "wearing their shirts outside of their pants, or perhaps without pants." We do not share The Sun's concern, however, for Uncle Sam keeps the Filipinos on the run day and night, week in and week out. They may be able to "keep their shirts on," under these conditions, but the Malay who gets so much exercise in so hot a climate will certainly breathe in pants. So never fear.

The war heroes have made splendid records, but some applause should go to the man who is achieving so many "bloodless victories of peace"—Chief Wilkie of the secret service. He was formerly a Chicago newspaper man, and his early training as a reporter has been invaluable in making life miserable for counterfeiters and the like.

The United Commercial Travelers showed good judgment in electing C. B. Evans, of this city, as Grand Councilor. Mr. Evans is a man of fine abilities, and the traveling men will find him an unusually progressive head of an unusually progressive order.

General Brooke's plan for the disarmament of the Cubans has been approved by the president and the islanders will deposit their rifles with the mayors of the various cities. This arrangement appears to be satisfactory all the way round—as General Brooke's arrangements usually are.

"Rail away," said the engineer to the joker as he made a run for the obstruction. "I'll have that rail away in about

two jerks!" And he did. The switch engine was naturally trained to deal hard blows, and it was no time for scoffing.

The officials of both railroads are loud in their praises of the course taken by Mayor Richardson during the crossing row. The mayor has been absolutely impartial, yet has held both sides to the strict observance of the city ordinances.

The railway officials, however, have the consolation of knowing that there are, and always have been, others. For instance Jordan, according to the old song, was found exceedingly difficult to cross.

Chicago is certainly a swift town. A saloonkeeper in that city left his bar long enough to run across the street to turn in a fire alarm, and during his few seconds' absence, the place was looted by thieves.

So Aguinaldo wanted an armistice, and did not ask for peace terms. What Aguinaldo really needs is the "strong arm," not an armistice, and General Otis will see that he gets it.

The English sailors plan to give Admiral Dewey a rousing reception whenever he visits a British post, on his homeward trip. Our English cousins are all right.

Judge Sutherland has pulled the teeth of the State Board of Dental Examiners, holding that the board cannot make rules to govern colleges.

The chewing gum trust should have no trouble in placing its stock, as it will be sold in blocks of five at a penny each.

It is thought that the railroads have agreed upon peace terms. It may be that it is only an armistice, however.

Dewey is now on his way home and his admiring fellow citizens are getting their throats in trim for "hollerin'."

COMMERCIAL MEN

HERE NEXT YEAR

FIVE HUNDRED SALESMEN WILL COME IN MAY.

At State Meeting Held in La Crosse the Delegates Selected Janesville As the Place For Holding their State Meet In 1900—Second Friday and Saturday In May.

Five hundred commercial traveling men will assemble in Janesville the second Friday and Saturday in May, 1900, to attend the annual state meeting of the grand council United Commercial Travelers.

At the meeting held in La Crosse Saturday the Bower City was voted the honor of entertaining the Knights of the grip in spite of the fact that Eau Claire and Green Bay made extra efforts to land the prize.

Such a convention in the Bower City will mean the gathering here of men from all parts of the country as well as the state of Wisconsin.

Local committees will be appointed in due course of time, and no pains or expense will be spared by the two hundred local commercial travelers to give their brothers a royal good time when here.

The Mutual Commercial Travelers made a strong fight in the last legislature for the passage of a 2-cent fare bill. The only matter of that sort taken up at La Crosse was the passage of a resolution the same as recently adopted by the Grand council in Illinois, disapproving the Sebastian interchangeable mileage ticket now in use by the Western passenger association, endorsing and recommending for adoption in its stead. The Thrall interchangeable mileage.

The matter was referred to a committee consisting of A. F. Spooner, of Janesville, C. H. Dean of Eau Claire, and C. B. Evans, of Janesville, who will take it up with the Passenger association and also urge other grand councils to take similar action.

Grand Secretary Lang's report showed an increase of membership of fifty-one in Wisconsin during the past year, and two new councils have been organized at Green Bay and Madison. Grand Secretary Evans reported that the grand council is on a good footing, financially.

Attention, W. R. G.

A special meeting of the W. H. Sargent Woman's Relief Corps No. 21 will be held Tuesday afternoon, May 23d, at 2:30 o'clock at G. A. R. hall. All members are urgently requested to be present.

WINE OF CARDUI

Woman Knows Woman.

ZURICH, KAN., Jan. 31.
I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.
MRS. V. M. BOISVERT.

Wine of Cardui

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman knows. Mrs. Boisvert knows. She has passed through the trials and tribulations of her sex. She has been near by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it? Is it any wonder that thousands of other women recommend it. They know. They have actual experience to prompt them. They spread the tidings from mouth to mouth, telling how Wine of Cardui helps young girls, helps the weak of all ages, helps and cures all womanly ills.

SABBATH WORSHIP AT THE CHURCHES

EXCELLENT SERMONS BY LOCAL DIVINES.

Rev. Wilson's Theme Was "Natural Hindrance to Religious Reconstruction"—Rev. Kempton's Morning Subject Was "Immanuel, God With Us."

At All Souls church yesterday, Rev. A. G. Wilson preached on the "Natural Hindrance to Religious Reconstruction" and explained how many people of education and intelligence are still pledged to the traditional forms of religion.

An intelligent liberal man is very likely to be sure of his position. He has come to his ideas by processes that are logical and national, and this has made him wonder why all people do not see it as he does. But there are a great many reasons why they do not. The time will never come when complete harmony will prevail among men in religious matters. There are too many unknown factors.

If all men were equally candid and equally free to accept truth and equally strong to grasp principles, they would inevitably come to the same conclusions if given the same set of facts and the same point of view. But this will never occur. They differ in their mental grasp, in their prejudices and in their willingness to be led by truth.

People inherit their religious ideas. The strongest religious teachers today are dead men whose ideas were bequeathed to the world. Heredity is holding thought to the old channels. Ideas, true or false, once planted in the heart are not easily supplanted. There is no tendency that stays so long in a man's blood as the religion of his ancestry. The songs that are sung by a woman as she rocks the cradle awaken echoes that do not die. Man is not free in any department of his nature. He thinks the thoughts as well as feels the pains that are transmitted from generations long passed away. And we are carrying dead men's thoughts as well as our own.

Theologians are made before they are born, and they continue to speak to us after they are departed. Therefore, I say, with such a variety of influences playing upon a man, the reconstruction of religious ideas will go on, but it will be by slow processes. I do not expect a revolution. There will not be any sudden and marked changes in the theological horizon. The day will advance with the rising sun until all the valleys are flooded with light, but it will be a gradual dawning.

The bonds that are holding men to the old paths are: Love of tradition; the power of sectarian education; the power of rash social organization; the investment of large sums of money in splendid architecture and music; the ambition of men of talent for high ecclesiastical position, and the financial emoluments that always are attached to great institutions.

Court Street M. E. Church

Walter A. Hall, pastor of Court Street M. E. church, preached to two large and attentive audiences yesterday. His morning subject was: "Noble Patience." Speaking first on forgiveness, he said: You harbor hard unforgetfulness in your heart and call yourself a Christian, do you? Then the devil is a Christian and every imp in hell is getting ready to finger a harp. Dwelling on the parable of the unjust steward and especially the verse, "Have patience with me and I will pay thee all." This text is not an empty promise, it is a whole ocean. It is big enough and deep enough to drown every self sufficient person. He dwelt at some length upon the tender and long forbearance of God with us. It is not true that you expect mercy in oceans, and deal it out in spoonfuls? Your blame is a mercury with wings on its feet, swift and terrible; your praise is sick abed under an opiate. Mr. Hall dwelt with strong emphasis on the fact that the preacher needed to learn patience with the pew. The need of the outside for the work the church is intended to do, and the need in the church for the development and spiritual brawn that would come from the service rendered. This need looms large and clear like a twenty story building in the noon. He urges with vigor and constancy. There is plenty of clapper and a good deal of swinging of the clapper, but little or no responding ring. The indifference about him seems a winter with no possible spring. Do you wonder if he sometimes loses patience? Then again, he must contend with spiritual pride. Pliny said, "It is as hard to instruct pride, as it is to fill an empty bottle with a cork in it. Spiritual pride is the cork that keeps people spiritually empty. The preacher knows that whatever he says, or however he says it, it will be useless to such people. Mr. Hall spoke on the need in the pew of patience with the preacher. A preacher trying to do as everyone thought would be a weather vane in a whirlwind. He can no more do it than an elephant can catch mice. Have patience with him he is only a man and only one man. The members of a church are to have patience with each other. Don't obstruct. Don't put gravel, ties, box cars and locomotives in the track of progress. Co-operation is larger than criticism. A chronic croaker is about as useful as a wart on a man's face. God's sends us the warm spring time of kindly appreciation. It will meet the frosts of harsh criticism. It will usher in the summer of service and of love.

The Baptist Church.

Rev. A. C. Kempton preached another sermon in his morning series. His subject was, "Immanuel, God With Us." The text was in Matt. 1, 23. This is a beautiful motto. It is first found in

BAKEWELL PUDDING.—This pudding is a favorite English dessert that may be served either hot or cold. To two ounces of sugar add the juice and grated peel of a lemon, the yolks of four well beaten eggs, the white of one whisked to a froth and three ounces of fresh butter which has been melted until sufficiently soft to be creamy, but not oily. Beat all the ingredients together and, when thoroughly mixed, pour into a pie dish lined with oiled paper, over which a layer of apricot jam has been spread. Bake in a quick oven about half an hour. If served cold, turn out of the dish.

the prophet Isaiah who spoke of a king who should deliver to his people and it also refers to Jesus the Saviour.

Jesus was the God man. He was human and he was divine. He had sympathy with humanity and he had all power to carry out his own purpose. It is only when we can know Jesus in this two-fold aspect that we can understand the blessed Lord. We have in this word Immanuel all there is in theology. He is the ever present, human sympathizer and the all-powerful God. Wellington and Napoleon have done their great work and are gone and we speak of them as those who are gone, but Immanuel is still with us. He is even more with us than ever before. In all lands his name is known and his presence is with us to comfort in days of adversity and trouble, or to rejoice with us during our hours of joy and rejoicing.

That God is with us all of our days is the most precious thought of our religion.

Have you ever faced death, or been in great danger or uncertainty, and did you think that God was with you in those times of trouble.

If Immanuel has its full meaning, it means that he is with us today and will ever be with us all of the days to come. May God help us to always remember that in all things, our labor as well as our worship, Christ is ever with us.

In the evening Rev. Kempton gave another lecture upon "Difficulties with the Bible." The subject was: "Difficulties as to Miracles." In every Christian's life there is a slough of despair when our faith is sadly tried. Doubts are filling the mind and the Bible is hard to believe. One of these difficulties is about the miracles of the Saviour. The leading objection is that they are impossible. They say that what is contrary to human experience is impossible. This is not true, for our inventors and discoverers would have to stop their work for they are doing things that are contrary to human experience. Miracles are possible.

The skeptics say that they are improbable. There are breaks in the natural laws that we can easily see, and therefore there may be breaks in the natural laws that we cannot see. Natural laws are "God's common ways of working and miracles are simply God's uncommon way of doing things. Many of the miracles of God can possibly be accounted for by known natural laws, but there are higher laws that God may use. Gravitation is a fixed law of nature but we are overcoming that law every hour.

The purpose of miracles was to attest the truths taught by Christ. They convinced men that Jesus was truly the Son of God. The miracles were the credentials of Christ. If a mechanic can stop or start some great machine that he has made, thus proving that he is its master, cannot Christ do as much with the great machine called nature.

Again, it is true that Jesus performed miracles. Thousands were convinced by a personal experience. Even the Jews have admitted that Christ performed miracles. Christ performed his miracles in a public manner. The forty miracles recorded were performed in at least eighteen different cities and many other public places. There is no case of failure in Christ's miracles. All conditions were the same to him. If he had failed in one single instance his enemies would have found it out and let the world know it.

The fact that men of all conditions and occupations of life believed that Jesus performed miracles says that he did. The scholars of the world would not be led into the belief in miracles if they were not performed by Jesus Christ. They have been the spiritual light of all men.

Let us thank God for the miracles of our blessed Savior.

AULD'S INJURIES MAY PROVE FATAL

TOWN OF HARMONY FARMER
IN RUNAWAY.

Was Driving to Town This Morning When Team Became Frightened—Two Cows Were in the Wagon at the Time—Auld's Left Leg Suffers Compound Fracture.

Josias Auld, of the town of Harmony was seriously injured in a runaway accident this morning near the corner of Ruger avenue and Forest Park boulevard.

The unfortunate man suffered a compound fracture of the left leg two inches above the knee, his right foot was badly bruised, and a deep gash was cut on his leg below the knee.

A telephone message brought the fire patrol to the scene, but the services of the fire police were not needed as the injured man requested to be taken to his home in the town of Harmony two miles east of the city limits.

Dr. James Mills was summoned and the injured man was removed to his home in one of C. O. MacLean's rigs by W. E. Evenson, F. L. Clemons and George Skinner.

He was suffering intense pain and only by the frequent appliances of stimulants was he kept from fainting. The large bone of his left leg was found badly fractured and protruded through the flesh.

The right foot was bruised where the wagon wheels had passed over it; the deep gash below the knee on the left leg reached nearly to the bone.

With the aid of Messrs. Evenson, Clemons and Skinner, Dr. Mills set the shattered bone.

In explaining how the accident happened, Mr. Auld said that he was driving to town with a spirited team attached to a lumber wagon on which was a rack. In the rack were two head of cattle being brought to market. When near the city limits the cattle became uneasy, and as they jumped about in the wagon the horses took fright and ran away. When near the corner of Ruger avenue and Forest Park boulevard, they collided with the gutter and came to a stop. The cattle remained in the rack until released, and were none the worse for their experience. The horses were bruised.

Mr. Auld is fifty-five years of age. The result of his injuries cannot as yet be told.

THE firm of N. B. Robinson & Co. has been dissolved by mutual agreement, and hereafter the liquor trade will be managed exclusively by Mr. Robinson, while the brewing of ale and porter will be done by James Smith. Mr. Robinson gives up his connection with the brewery in order to devote his time more closely to the family and jobbing trade; while Mr. Smith, who has been brew-master for the company for three years, will continue to use his best efforts to advance the standard of the product.

WARDEN JOHNSTON AFTER SPORTSMEN

CHARGES SEVERAL WITH ILLEGAL FISHING.

Warrants Were Sworn Out in the Municipal Court This Morning—Disregarded the Law While Fishing At Lake Koshkonong—The Guilty Parties Will Be Brought Here.

State Game Warden C. W. Johnston, of Winneconne entered the municipal court room this morning and filed complaint against several sportsmen at Lake Koshkonong, charging them with illegal fishing.

Warrants were then issued for the arrest of the alleged guilty parties and it is expected that they will be brought before Judge Fifield sometime this week, probably Wednesday.

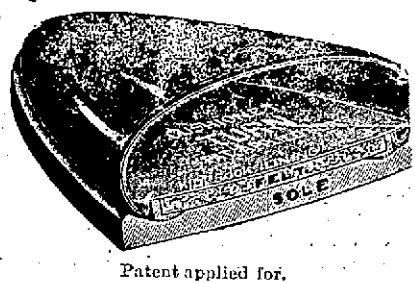

Warden Johnston stated this morning that several days ago he received complaint from Lake Koshkonong that the law was daily being violated at the lake and that several men there who made it a business to catch fish seemed to have but little regard for the law. It is alleged that these same fishermen would daily go out to the lake and bring in large catches regardless of what kind of the finny tribe they secured.

Warden Johnston said this morning that he set to work last week, and accompanied by State Special Warden J. W. Stone of Barron county, they quietly made their way to the shores of Lake Koshkonong, and there secured the desired evidence.

Spearing fish at night by light is also illegal, as well as the spearing of fish in any stream, frequented by trout.

Carp, cat fish, sturgeon, bull heads, gar fish, red horse and suckers may be speared in the day time.

Chicago Live Stock Report.

Chicago, May 20.—There was no change of importance in the few sales of cattle and sheep—the few offerings going very readily at prices recently paid. Most of the hogs also sold right at Friday's range, but the later trade had a little weaker tone and some useful light and mixed hogs were bought 2 1/2c below the cost of such the day before. Receipts were estimated at 300 cattle, 18,000 hogs and 1,000 sheep. Late sales of cattle have ranged slightly higher than one week ago and today's sales of hogs are well up to values quoted one week ago, while sheep and lambs show a net gain of 10@30c for the week, but heavy-weight sheep and yearlings showed most gain.

The dining room of The Mrs. Clark Co., 151-153 Wabash Ave., Chicago, is the best appointed and most modern restaurant in the city. It has been recently refitted, improved and enlarged and has an elaborate menu at moderate prices. It caters to those who demand the best.

The restaurant on the 7th floor of the Association building in La Salle street is also run by this company and is equally inviting and attractive.

STARTED AN AVALANCHE.

Sound of a Man's Voice Precipitated a Catastrophe.

Is it true that the sound of the human voice may start a snowslide? James Perchard, clerk in the state court of appeals, is inclined to answer the question in the affirmative, says the Rocky Mountain News. He has for twenty years past been almost of the belief that a word of farewell which he shouted in one of the mountain canyons cost the lives of two persons. "I never think of the event without a shudder," said Mr. Perchard. "I was mining at the time in the region above Georgetown. The snow had fallen to an unusual depth that winter and miners moving from one cabin to another were warned to look out for slides. I stopped in one of my trips at the cabin of an acquaintance and took dinner with him and his wife. At the close of the meal my host urged me to stay awhile and take a smoke with him, but I felt nervous and impatient for some reason which it was impossible for me to explain and declined as politely as possible the kind invitation. I arose from the table, and without delay started on my journey. Crossing the canyon, I turned to wave a farewell to the friends who had entertained me. The man and his wife were standing at the door of the cabin, and a third person was in the house. The air was perfectly still. Not the slightest intimation was given of the awful disaster which was about to happen. I waved my hand and shouted 'Good-by!' Hardly had the echoes of my voice died away before a muffled sound struck the ear—a noise like the boom of a cannon—and the whole side of the mountain seemed to be in motion. The snow, ice, trees and rocks started toward the bottom of the gulch, and within five seconds the cabin was overwhelmed and the spot on which I stood one or two minutes before was buried under fifty feet of snow. I summoned assistance as quickly as it could be done and we frantically dug out two dead bodies. The third person afterward recovered from the injuries inflicted by the slide, but I have never entirely forgiven myself for the word which I shouted on that never-to-be-forgotten day."

Don't be led astray and made to believe that there's something just as good as Rock Mountain Tea. There's nothing half so good. Smith's Pharmacy, kodak agents.

Lightning and Thunder.

It is said that lightning may be recognized at a distance of 200 miles when clouds among which it plays are at a high altitude, but that thunder can seldom be heard at a greater distance than ten miles. The sound of thunder is also subject to refraction by layers of different density in the atmosphere, as well as to the effects of "sound shadows," produced by hills and other interposed objects. These are among the reasons for the existence of the so-called "sheet" lightning or "summer" lightning which seems to be unattended by thunder.

BASEBALL REPORT.

Standing of the Clubs in the Leading Leagues.

The Orphans switched back to the right track yesterday, after three straight defeats. The first six clubs of the league are now beautifully bunched, with Baltimore not so far adrift. Chicago gained slightly on St. Louis, which could only split even in a double-header with New York, but made no progress in overhauling Brooklyn, which captured another game from the Reds. New York's even break enabled it to rise above Pittsburgh, and also above Louisville, which had the misfortune to drop a game to Cleveland. The drubbing they inflicted on Philadelphia Saturday seemed to have an inspiring effect on Cross players. The standing:

| Clubs. | Won. | Lost. | Per cent. |
|--------------------|------|-------|-----------|
| St. Louis | 21 | 8 | .724 |
| Brooklyn | 21 | 9 | .700 |

Gov. Tanner Is Ill.

Springfield, Ill., May 22.—Gov. Tanner is again confined to his bed at the executive mansion. He had expected to leave this morning for Louisville, Ill., to attend the reception tendered the Nin a Illinois, which has just returned from Cuba. The governor was also expected to make a speech to the men of the regiment, but his illness will necessitate his remaining at home. Judge Monroe, assistant attorney general, who was to have accompanied Gov. Tanner, will represent him at the reception. The governor has taken a severe cold and has been in bed all day. He hopes to be out in a day or two.

Alger to Stay in the Fight.

Washington, May 21.—Secretary Alger declares he will remain in the contest for United States senator from Michigan, and the outlook is for a bitter fight between him and Senator McMillan. The election will not take place until the next legislature meets, early in 1901, but the contest will be determined in the nomination and election of members of that legislature in the fall of 1900.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. For sale by People's Drug Co., corner Main and Milwaukee streets.

Does Coffee Agree With You?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it, but after using it for one week nothing would induce me to go back to coffee." Get a package today from your grocer, follow directions in making it and you will have a delicious and healthful beverage for old and young. 15c and 25c.

Hains Damage Nebraska Crops.

Omaha, Neb., May 22.—Rain has fallen almost continuously throughout Nebraska during the past week and as a result considerable damage has been done to property and crops. Except in the extreme northern and western parts of the state there has been a surplus of moisture and corn is reported to be rotting, while small grain has in many places been washed out.

Settling the Panama Strike.

Springfield, Ill., May 22.—The decision of the state board of arbitration in the matter of the Panama mining strike will be handed down today. The price fixed by the board for mining in that city is said to be 30 1/2 cents. Before the strike the miners were paid 25 cents a ton and the scale for Panama was fixed at 40 cents a ton at the Chicago convention.

Galleians Settle in Canada.

Halifax, N. S., May 22.—The steamer Phenicia, which arrived here Sunday from Hamburg, will land tomorrow 1,308 Galleians, who are bound to northwest Canada to become settlers. One of the immigrants was lost by death on the passage and there were two births on board.

DAWSON CITY BURNED OUT.

Loss Estimated at Between One and Two Million Dollars.

DESTRUCTION IS COMPLETE.

One Hundred and Eleven Buildings, Embracing the Business Center of the Town, Consumed—Food Obtainable, but Houses Cannot Yet Be Rebuilt.

Victoria, B. C., May 22.—The great fire, so long threatened, has overwhelmed Dawson City, and nothing is left of the center of the Klondike metropolis save a heap of ashes.

One hundred and eleven buildings, large and small, were consumed.

Fortunately for the inhabitants the big warehouses of the Alaska Commercial company and the North American Trading and Transportation company escaped untouched with all their contents.

Strangely enough, the fire was caused as had been its predecessor that all but obliterated the town, through the upsetting of a lamp.

The loss is estimated at between \$1,000,000 and \$2,000,000. There was no fatality.

The fire commenced in the heart of the business section at 3 a. m., the point of the starting being a cabin close to the opera house and just above the water-front strip. An abortive attempt was made to extinguish the blaze before an alarm was sounded, and in this way delay was caused that gave the fire headway. A strong north wind was blowing, and the fire, traveling in sheets and clouds rather than in flames, soon swept up buildings in its way along the main thoroughfare, the burned area taking in all the water-front buildings abreast of the same blocks.

Within half an hour from the time it started the fire had crossed the street twice, burned through and spread to Second street, every important building in what was broadly known as the business section being consumed.

The firemen in their first half hour's work accepted the inevitable—abandoning the effort to stay the flames, and devoting themselves to the salvation of property in buildings somewhat removed from the sweep of the fire.

Not a single building was left as a landmark, from Timmins' Royal cafe down to and opposite the Fairview hotel. In this district were all the structures erected in 1897 and 1898; indeed, not a pioneer building is left to the town.

When the obliteration of the city appeared certain the citizens became panic-stricken, and even when they could have been of service, rushed toward the hills back of the town.

Of course there was no insurance on any property and the stocks of the commercial companies will be severely taxed in meeting the demand for necessities, all private stores of food and clothing having been destroyed within the radius of the fire.

Manager Godfrey of the Bank of British North America estimates the Dawson loss at \$1,000,000, and his bank's loss at \$500,000. Other estimates place the loss considerably higher.

It will be impossible for any pretensions effort at rebuilding to be made until navigation opens, for at present there are not 3,000 feet of rough lumber in the entire district. Materials of all sorts are equally scarce.

Provisions have not been advanced in price, nor clothing, the companies being determined, apparently, to do all in their power to relieve the general distress.

A rough estimate places the loss in gold and paper money alone at \$500,000, chiefly in the destruction of the Bank of British North America, the fireproof vault in this institution having belied its name.

A letter which was brought by the messengers with the news of the fire notes that before the ashes of the bank had time to cool men were working on the spot with rockers, there being a probability that much of the lost gold will be recovered in this manner.

Rich Gold Strike.

Experts sent to examine the find say that the average value of the vein matter is \$1,500 and assays have been obtained as high as \$155,000 per ton gold.

QUIET AT SAMOA.

Situation Practically Unchanged—Immense Damage Done by Hurricane.

Vancouver, B. C., May 22.—The latest news from Samoa, brought by the steamer Miowera, indicates that the situation is practically unchanged and that affairs are remaining in statu quo pending definite arrangements between Great Britain, Germany and the United States.

Shortly before the just-arrived steamer Miowera left Sydney for this port the cutter Mystery returned to Cookstown from the scene of the recent disaster by hurricane on the North Queensland coast, by which practically every vessel engaged in the pearl fishery was wrecked and much property lost afloat and ashore. An official report says that eighty-six vessels were wrecked and that 385 people lost their lives.

Box of Human Bones Found.

St. Louis, Mo., May 22.—Laborers digging in a yard on North Taylor avenue unearthed a box of bones which were pronounced to be from a human body. The bones were broken, as if by a hatchet, and through the skull were two small holes resembling bullet holes. The box had evidently been buried for years. In 1892 a Miss Richards disappeared and was never found. The police are inclined to believe she was murdered, the body dismembered and buried in the box just found.

"Army of Santiago."

Chicago, May 22.—The organization of the Illinois division of the Army of Santiago was completed last night at the second meeting of veterans of the First regiment who served in the Spanish-American war. Articles of incorporation, which will be filed at Springfield, were formally adopted. Col. H. L. Turner was installed in his office as president of the new society and 400 names were added to the membership roll.

Jail for Ex-Judge Crawford.

Crown Point, Ind., May 22.—Ex-City Judge H. B. Crawford of Hammond, this county, has been sentenced to the penitentiary, by a jury in the Circuit court, under the indeterminate sentence law. Crawford was arrested by state officials and indicted while on the bench for embezzlement and malfeasance in office in failing to turn over several hundred dollars due the state in fines.

Preacher Found Dead in Bed.

Minneapolis, Minn., May 22.—A shadow of gloom was cast on the many ministers and laymen gathered in this city in attendance on the Presbyterian general assembly. The Rev. Dr. H. M. Robertson, who represents the Presbytery of Des Moines, was found dead in bed at the home of his son-in-law, F. E. Tenny. Dr. Robertson came here about a week ago and seemed in good health.

Minor Powers to Act Together.

The Hague, May 22.—The Belgian, Dutch and Swiss delegates to the disarmament conferences held a meeting to consider the question of taking united action, especially with reference to all matters particularly affecting the minor powers. They will probably agree upon some form of co-operation.

Mrs. Bradley's Gift.

Peoria, Ill., May 22.—In addition to a magnificent endowment already made, Mrs. Lydia Bradley has just donated to the Bradley Polytechnic Institute all her property in Peoria county, estimated to be worth over \$500,000 retaining a life interest therein.

Death of James G. Harris.

Cambridge, Mass., May 22.—James G. Harris, ex-treasurer of the Union Pacific Railroad, died at his home here today.

Ireland Leads.

It is said that Irish girls have the best eyes, the keenest wit, the brightest complexion and the most beautiful hands of all the women in the world, the hands of the American girls being declared too narrow and too long, those of the English girls too plump, German girls' hands too broad and fat, while the Spanish feminine hand is the least graceful of all.

Healthiest Village.

The healthiest spot in the world seems to be a little hamlet in France named Amunee. There are only forty inhabitants, twenty-five of whom are 80 years of age and one is over 100.

Ninth Illinois Near Home.

Louisville, Ky., May 22.—The Ninth Illinois regiment passed through this city Sunday night on the way home. The boys were mustered out at Atlanta on Saturday and are going direct to the towns where they were mustered in.

Reina Mercedes Safe in Port.

Newport News, Va., May 22.—The Spanish cruiser Reina Mercedes arrived in Hampton roads Sunday afternoon, in tow of the Merritt Wrecking company's tugs L. J. Merritt and Rescue, and accompanied by the steamer S. T. Morgan.

Big Strike in Natural Gas.

Toledo, Ohio, May 22.—Kerlin Bros. Saturday struck gas on a farm at Tiffin, the yield being over a half million feet a day. It is one of the largest strikes in years.

Transport Again Delayed.

Ponce, Puerto Rico, May 23.—The United States transport Meade, formerly the Berlin, which, while leaving this port Monday last with the Nineteenth infantry, struck a sunken wreck outside the harbor, which caused a serious leak and necessitated her return here, left port last evening, but returned again this morning, a further leakage having developed during the night.

Kills Mother and Brother.

Bellefontaine, Ohio, May 21.—Because Ernest Austin was opposed in his wishes to marry a neighbor's daughter, he killed his mother, Rachel Austin, and his brother William early Sunday morning. He next set fire to the house and sent a bullet through his lungs.

Ten Thousand in Quarantine.

New York, May 22.—A case of smallpox was discovered in the almshouse on Blackwell's island Sunday, and as a result of the subsequent investigation by the board of health officers the entire island, on which there are about 10,000 persons, has been put under quarantine.

Delays Action in Meat Bill.

Berlin, May 22.—The adjournment of the reichstag has been agreed to in principle, though the federal governments are still insisting upon the adoption of supplementary estimates. Consideration of the meat inspection bill will be postponed until next autumn.

Fire Destroys a Polish Town.

Warsaw, Russia, May 22.—The town of Porosow, in the government of Warsaw, has been destroyed by fire. Twelve lives were lost and 3,000 people driven from their homes are now camping in the fields. It is believed that the fire was of incendiary origin.

Mrs. Morris' Letter to EVERY WIFE AND MOTHER.

(LETTER TO MRS. PINKHAM NO. 14,351)

"I have taken eight bottles of Lydia E. Pinkham's Vegetable Compound with gratifying results. I had been married four years and had two children. I was all run down, had falling of womb with all its distressing symptoms. I had doctored with a good physician, but I derived very little good from his treatment. After taking a few bottles of your medicine, I was able to do my work and nurse my seven-months-old babe. I recommend your medicine to every wife and mother. Had I time, I could write much more in its praise. I bid you God's speed in your good work."—MRS. L. A. MORRIS, WELAKA, PUNAM CO., FLA.

"DEAR MRS. PINKHAM—When I commenced the use of your remedies I was very bad off. Every two weeks I was troubled with flowings which made me very weak. I had two of the best doctors, but they did not seem to help me.

"They said my trouble was caused from weakness and was nothing to worry about. I felt tired all the time; had no ambition. I was growing worse all the time until I began the use of Lydia E. Pinkham's Vegetable Compound. I am now able to help about the house, and am much improved in health."—MRS. A. WALKER, CALICOON DEPOT, N. Y.

An Oft Repeated Tale.

"Meat was like sole leather today." Why not charge your trading place? Try our market—we know we will retain your trade if we can secure your orders for a week. Our meats are all from selected stock. We are particular about buying, not only because we have a particular lot of customers to please but also because we have a pride in sending out only the tender, juicy stock.

North Johnstown
 North Johnstown, May 22—Mr. and Mrs. C. C. Carr, of Janesville, and Dr. F. A. Rice, of Delavan, were at T. E. Rice's Sunday. Grandma Tooker spent the past two weeks with friends in Fort Atkinson. Dr. O. G. Bennett's family, of Janesville, spent Sunday at George Bennett's. Their daughter Margery has been spending several days with her grandparents. Thomas Goodyer and wife, of Richmond, were at the home of her father, H. Walker, Sunday. Mr. and Mrs. Paul Young spent Sunday with friends in Edgerton. The W. C. T. U. meeting will be held with Mrs. Eugene Cary Thursday afternoon of this week. Those who were too busy to work in the cemetery last Saturday are requested to meet there for work Saturday of this week. Mrs. H. H. Osborn left Monday morning for the state convention of the W. C. T. U. at Sparta. There was an increased attendance at the Christian Endeavor society Sunday evening. We hope they will all continue to attend. Rev. A. Lonfield and J. H. Bray attended the quarterly meeting of Free Baptists at Rutland. Mrs. O. J. Summerbell is the delegate of the Harmony Union to the W. C. T. U. state convention.

Church Goes.

What \$12 Will Buy....

The above named price is marked on several hundred very swell, very pretty, very excellent suits, all bearing the label—Ziegler. The fabric are pure wool fabrics in fancy patterned colorings, as well as plain black and blue, shapes of coats are double as well as single breasted, and the entire appearance and serviceability of these suits are equal to any which you may have made to measure at \$25.

There is a reason why we sell these Suits at so low a price, but it concerns you not, as it has no bearing at all on quality or price.

These are rich pickings for early comers. Sluggards lose many a rich plum in this world of opportunities. A Ziegler suit for \$12 is an opportunity which should not be lost.
